Or do you already know, and just want to test your expertise across multiple vintages as far back as the perfect year of 1975? Better yet, do you just like your French wines and want to sample some new ones? Then this event is something for you and seven of your friends! On this evening, you will be treated to a blind tasting of several high quality wines, with a focus on Bordeaux. First, while enjoying a glass of Champagne, you'll be given a brief introduction on flavors and wines. Then it will be your turn to put your knowledge to practice or just enjoy some really good wine. Your group will be challenged to match the wines on the list to those being tasted. The winner, with the most discerning palate, will take home a nice bottle of Bordeaux. The tasting event will also include a selection of French cheeses, dried meats, bread and salad." |
